# MEMBER UPDATE

**ALL AHS GSS AND NC STAFF**

## **AHS will provide free vaccines for its employees**

***This gain supports thousands of AHS Nursing Care and General Support Services members***

AUPE members working for Alberta Health Services (AHS) will soon have access to a range of employer-paid vaccines at no cost. This coverage means more protection for you, your family, and the people you care for.

These vaccines, which includes the COVID-19 vaccine, are voluntary.

We do not yet know how AHS plans to implement it for AUPE members. We will share more details as soon as we confirm them.
