### Long-service increases delayed

#### *Payments will begin Nov. 7, but will be backdated*

Increases to Long-Service Increments (LSI) negotiated in your new collective bargaining agreement will now begin on November 7.

The increases of 2% after 20 years were supposed to begin on Oct. 24, but the employer says system-configuration delays mean that this has been put back by two weeks. Payments will be retroactive to the date of ratification of the new collective agreement.
